- **Frontend:** React, Next.js, TypeScript, Tailwind CSS, Shadcn, Zustand, Redux, Framer Motion, React Hook Form, Zod
- **Backend & Data:** Node.js, Express, Payload CMS, PostgreSQL, MongoDB, Drizzle ORM
- **DevOps:** Docker, Nginx, GitHub Actions (CI/CD), VPS Deployment, Linux
- **SEO & Analytics:** Technical SEO, JSON-LD, Google Tag Manager, GA4, Consent Mode v2
- **Languages:** Arabic (Native), English (C1)

EXPERIENCE

FULL-STACK DEVELOPER | INDEPENDENT CONTRACTOR (UPWORK) *FEB 2026 – PRESENT*

Mshtl — multi-tenant nursery management SaaS | mshtl.app

- Built and deployed end-to-end with Next.js, TypeScript, and PostgreSQL (Drizzle ORM); shipped to a VPS with Docker, Nginx, and SSL, and now serving paying users
- Designed a ledger-based accounting architecture (balances derived from transaction history) with best-seller tracking and monthly/yearly reports that helped the client shift stock toward top sellers, contributing to a 30% profit increase
- Built inventory and financial tracking that improved loss control by 25%
- Set up GitHub Actions CI/CD and automated PostgreSQL backups to Google Drive via rclone

NEUN Gaming — iGaming content platform (Next.js + Payload CMS) | neungaming.com

- Implementing technical SEO on an existing Payload CMS codebase: site-wide search, metadata, sitemap/robots, JSON-LD structured data, and IndexNow
- Integrated GTM, GA4, Google Ads conversions, and Consent Mode v2 cookie consent, configurable from the CMS admin so the client manages tracking without a developer

FULL-STACK DEVELOPER | WEBSIGHT – KUWAIT-BASED DIGITAL AGENCY (REMOTE) *MAR 2024 – JAN 2026*

- Raised Lighthouse performance scores from 62 to 98 across multiple legacy applications through code splitting, lazy loading, and bundle optimization
- Built Cash Clinic (custom interactive video player) and CR8 (Canvas/ag-psd PSD mockup editor) in place of paid third-party services, cutting client infrastructure costs by 40%
- Refactored legacy codebases to fix critical bugs and improve stability; shipped accessible, pixel-perfect UIs with Tailwind CSS in Agile teams with designers and product

MILITARY SERVICE | EGYPTIAN ARMED FORCES *JAN 2023 – FEB 2024*

PROJECTS

Riders — frontend for a delivery platform processing 50,000+ orders/month | order.tryriders.com/en

- Built the multistep bulk-order form and real-time order tracking with an interactive map
- Shipped bilingual RTL/LTR support while holding a 94+ Lighthouse performance score

Dropox — e-commerce platform for a physical product (Next.js, Node.js, MongoDB) | dropoxkw.com/

- Built the landing page, order processing, invoice generation, and Tap Payments checkout; live in production
- Built an admin dashboard with sales analytics, visitor tracking, and browser-usage insights using Google Analytics

EDUCATION

BACHELOR OF LAWS (LL.B.) | SOUTH VALLEY UNIVERSITY *JUNE 2022*
